

Orunor Awhie

JUNIOR FRONTEND ENGINEER (REACT · NEXT.JS · TYPESCRIPT)

AVAILABLE IMMEDIATELY

+234 915 554 1159 oruno.awhie@gmail.com www.drakemarho.com github.com/runo25

SKILLS & STACK

FRONTEND CORE

JavaScript (ES6+) TypeScript
React.js Next.js HTML5 CSS3
Tailwind CSS Responsive Web Design

STATE & API INTEGRATION

REST APIs Fetch/Axios Context API
Redux Toolkit
WebSockets / Real-Time Data
JSON Handling

COMPONENT & UI ENGINEERING

Reusable Component Architecture
Micro-Interactions
Mobile-First Design
Web Accessibility (WCAG)
Figma-to-Code

DEVELOPER TOOLING & DEVOPS

Git GitHub NPM/Yarn
Chrome DevTools Vercel Netlify
Basic Docker
Performance Optimization

EDUCATION

Diploma in Computer Science
Petroleum Training Institute
Sep 2021 — May 2025

PROFESSIONAL SUMMARY

Detail-oriented, high-initiative Junior Frontend Engineer with 2+ years of hands-on experience building fast, responsive, and accessible web applications using React, Next.js, TypeScript, and Tailwind CSS. Passionate about transforming design mockups into pixel-perfect, interactive digital experiences with clean component architecture and smooth API integrations. Recognized for strong engineering curiosity, meticulous code quality, and a disciplined work ethic—eager to contribute to Walure Capital's engineering team while rapidly absorbing mentorship and best practices.

PROFESSIONAL EXPERIENCE

Frontend Developer

2025 — Present

Remina App

- Built and maintained responsive UI features for a modern Progressive Web App (PWA) using React, Next.js, and Tailwind CSS.
- Implemented smooth client-side caching and dynamic state flows, ensuring sub-100ms UI interaction speeds across mobile and desktop devices.
- Integrated client-side RESTful API endpoints for asynchronous asset loading, media uploads, and error handling with clear user feedback.

Frontend & Web Solutions Developer

Jun 2024 — Present

Code and Canvas

- Delivered 6+ custom, responsive web applications for SME clients, translating Figma wireframes into clean, maintainable Next.js codebases.
- Engineered a modular, reusable UI component library (buttons, modals, form inputs, navigation bars), reducing frontend development turnaround by 40%.
- Optimized client websites for performance and SEO, consistently scoring 90+ on Google Lighthouse metrics across mobile and desktop audits.

Junior Software Contractor

Mar 2024 — Aug 2024

Independent Technical Contracts

- Developed interactive landing pages and customer onboarding forms with accessible client-side form validation.
- Collaborated with backend engineers to integrate third-party payment gateways and reservation scheduling APIs.
- Maintained clean documentation for component usage, styling guidelines, and deployment procedures.

KEY PROJECTS & WORK

Prime Portfolio & UI Widget Showcase

drakemarho.com

React TypeScript Tailwind CSS Google Lighthouse (100/100)

- Engineered personal portfolio highlighting modern component aesthetics, dark/light themes, and fluid micro-animations with zero layout shifts.
- Achieved a perfect 100/100 performance score on Google Lighthouse through image optimization, lazy loading, and semantic HTML.

Lois Braid — Smart Commerce & Booking Platform

loisbraid.com

React Tailwind CSS REST APIs Context API

- Built responsive e-commerce and appointment booking interface with interactive product filters, cart management, and booking scheduling.
- Integrated dynamic REST API endpoints with robust error handling and optimistic UI state updates.
