PROFESSIONAL SUMMARY

Detail-oriented professional based in Price, Utah, with a strong background in data verification, proofreading, and research documentation. Brings exceptional attention to detail, strong written communication skills, and a reliable habit of following complex guidelines accurately. Experienced in reviewing digital information for consistency, fact-checking records, and maintaining high quality standards in independent and team environments.

PROFESSIONAL EXPERIENCE

Data Entry & Quality Verification Clerk

January 2022 — Present

Castleview Hospital — Price, UT

- Reviewed, verified, and cross-checked digital records and documents against strict compliance guidelines to ensure 100% accuracy.
- Proofread administrative reports and digital entries for spelling, grammar, and missing information prior to system processing.
- Followed step-by-step procedures to flag data errors, categorize entries, and maintain organized digital records.

Research & Communications Specialist

September 2012 — December 2021

Southeastern Utah Association of Local Governments (SEUALG) — Price, UT

- Executed fact-checking, literature reviews, and policy documentation for community development reports and local economic projects.
- Synthesized regional demographic and municipal information into clear, structured summaries and grant proposals.
- Maintained quality control across departmental publications, reducing document errors through careful proofreading and guideline adherence.

Technical & Educational Copywriter

June 2002 — August 2012

Carbon School District & Local Media — Price, UT

- Edited and proofread educational materials, district policy handbooks, and written notices to enforce correct grammar and formatting.
- Collaborated with school administrative staff to organize and present clear documentation following state reporting standards.

KEY PROJECTS & ACHIEVEMENTS

Digital Records Quality & Verification Project

 <https://jennifergrill-portfolio.com/data-verification>

Data Entry

Quality Control

Proofreading

Fact-Checking

- Audited municipal and administrative records for formatting errors, accuracy, and adherence to state documentation guidelines.
- Created standardized checklist rubrics to streamline data verification and reduce record entry errors.

Southeastern Utah Community Research Archive

 <https://seualg.utah.gov/research-archive>

Document Auditing

Fact-Checking

Technical Writing

Data Synthesis

- Verified and cross-referenced historical planning data across Carbon and Emery counties for accuracy.
- Synthesized public feedback into organized, readable summaries for local government review.
