

Oruno Awhie

FULL-STACK AI APPLICATION DEVELOPER (REACT · PYTHON · LLMS)

Nigeria (Open to Remote) +234 915 554 1159 oruno.awhie@gmail.com www.drakemarho.com github.com/runo25

SKILLS & EXPERTISE

AI & LLM SYSTEMS

OpenAI / Claude APIs LangChain
RAG Pipelines Prompt Engineering
Function Calling / Tool Use
Vector Embeddings (ChromaDB)

FRONTEND ENGINEERING

React.js Next.js Tailwind CSS
TypeScript / ES6+
Progressive Web Apps (PWA)
Responsive UI State Management

BACKEND & CLOUD

Python FastAPI
Django REST Framework
Firebase (Firestore, Auth) Docker
PostgreSQL Render CI/CD

ARCHITECTURE & TOOLS

REST APIs
WebSockets / SSE Streaming
Modular Architecture Git/GitHub
Figma

EDUCATION

Diploma in Computer Science
Petroleum Training Institute
Sep 2021 — May 2025

PROFESSIONAL SUMMARY

Innovative Full-Stack AI Engineer with 2+ years of experience engineering high-performance web applications and production LLM integrations. Expert in crafting responsive, app-like interfaces with React.js and Tailwind CSS, paired with robust Python backends (FastAPI, Django) and intelligent AI workflows (RAG, OpenAI Function Calling, vector embeddings). Proven track record of shipping production PWAs, modular SaaS architectures, and enterprise document automation systems.

PROFESSIONAL EXPERIENCE

Full-Stack & PWA Developer

2025 — Present

Remina App

- Spearheaded end-to-end development of a Progressive Web App (PWA) dedicated to seamless photo management and media sharing.
- Integrated AI-driven semantic search and automated image categorization using multimodal embeddings, boosting asset retrieval speed by 40%.
- Engineered smooth client-side caching and responsive state management with React, ensuring sub-100ms UI interactions across devices.
- Collaborated with backend engineers to consume RESTful endpoints and ensure secure media streaming in production.

Founder & Lead Developer

Jun 2024 — Present

Code and Canvas (Web & AI Solutions)

- Delivered productised web applications and custom AI automation pipelines for SMEs, managing end-to-end architecture from concept to live deployment.
- Engineered a reusable React component library and theme system, speeding up client site customization and reducing delivery cycles by 50%.
- Maintained live deployments, monitoring, and automated CI/CD pipelines on Render, maintaining 99.9% uptime across client platforms.

Software Consultant

Mar 2024 — Aug 2024

Independent Contracts

- Delivered full-stack bespoke web platforms for regional businesses, incorporating custom booking flows, client portals, and responsive UI systems.
- Collaborated with stakeholders to translate business requirements into high-converting digital products with 98+ Lighthouse performance scores.
- Created polished UI assets and component designs in Figma, ensuring tight alignment between brand identity and frontend execution.

KEY PROJECTS & ACHIEVEMENTS

AI Document Intelligence & Automation Pipeline

https://github.com/runo25/format

Python OpenAI Function Calling Jinja2 WeasyPrint FastAPI

- Architected an automated document pipeline extracting structured JSON entities from unstructured text and compiling deterministic, pixel-perfect PDFs with zero hallucinations.
- Integrated Pydantic schema validation and multi-currency calculation engines, cutting manual drafting turnaround time by 95%.

Lois Braid — Smart Commerce & Booking Platform

https://www.loisbraid.com

React Tailwind CSS Python/Django OpenAI API

- Architected a dynamic, full-stack commerce application featuring an interactive React frontend and a high-throughput Django REST backend.
- Engineered custom API endpoints for real-time scheduling and implemented an AI-assisted customer inquiry assistant.

Modular Hospitality & Guest Experience Platform

↗ <https://github.com/runo25/dk-luxury-website>

React Tailwind CSS Firebase Cloud Functions

- Built a modular hospitality management app featuring real-time room availability, digital menu ordering, and dynamic invoicing.
- Integrated Firebase Firestore for live synchronization and sub-second updates across guest devices and staff dashboards.

Prime Portfolio Platform

↗ www.drakemarho.com

React JavaScript (ES6+) CSS Grid/Flexbox

- Designed and engineered a flagship personal portfolio site showcasing interactive UI widgets, dark/light themes, and smooth micro-animations.
- Optimized asset loading and critical rendering paths, scoring a 100/100 performance rating on Google Lighthouse.
