

# Oruno Awhie

## FRONT-END DEVELOPER (REACT.JS)

📍 Lagos, Nigeria    📞 +234 915 554 1159    ✉ oruno.awhie@gmail.com    🌐 <https://www.drakemarho.com/>    🐙 [github.com/runo25](https://github.com/runo25)

### SKILLS & EXPERTISE

#### FRONTEND

React.js    JavaScript (ES6+)    TypeScript    Tailwind CSS    HTML5    CSS3    Redux    Context API    PWA    Responsive UI

#### BACKEND\_APIS

RESTful APIs    Asynchronous Data Fetching    Node.js    Python    C# (.NET Core)

#### TOOLS\_PRACTICES

Git/GitHub    Postman    Vite/Webpack    Agile/Scrum    Performance Optimization    JSON Parsing    Figma to Code

### EDUCATION

#### Diploma in Computer Science

Petroleum Training Institute  
Sep 2021 — May 2025

### PROFESSIONAL SUMMARY

Results-driven Mid-Level Front-End Developer with 2+ years of experience building high-performance, responsive web applications using React.js and modern JavaScript. Specialized in component-driven UI architecture, complex state management, responsive web design, and seamless RESTful API integration for fintech and web platforms. Passionate about delivering intuitive user experiences with high page speed performance and cross-browser reliability.

### PROFESSIONAL EXPERIENCE

#### Front-End Developer

Jan 2025 — Present

##### Remina App

- Spearheaded front-end development of a Progressive Web Application (PWA) dedicated to seamless media management and interactive user workflows.
- Engineered highly responsive, app-like user interfaces using React.js, optimizing image rendering, state persistence, and cross-device performance.
- Collaborated with backend teams to consume REST APIs, ensuring secure data handling, fast load times, and reliable mobile responsiveness.

#### Front-End Developer / Co-Founder

Jun 2024 — Present

##### Code and Canvas (WaaS Agency)

- Architected a modular React component library and theme system, speeding up client site delivery by 50% across multiple production deployments.
- Integrated frontend interfaces with secure RESTful backend services, handling complex state management and asynchronous data fetching.
- Translated client brand guidelines into responsive, accessible UI components with Tailwind CSS, increasing user conversion rates.

#### Front-End Developer

Mar 2024 — Dec 2024

##### Independent Contracts

- Delivered end-to-end web applications for clients, building dynamic frontends with React.js and integrating custom backend endpoints.
- Converted Figma & Photoshop designs into pixel-perfect, mobile-first responsive code, reducing front-end layout bugs by over 30%.
- Optimized Web Vitals and Lighthouse scores across client web applications, enhancing user engagement and accessibility.

### KEY PROJECTS & ACHIEVEMENTS

#### Visible App

🔗 <https://visibleapp.co/>

React.js    Interactive UI    REST API    PWA

- Engineered dynamic, interactive frontend features using React, including responsive onboarding flows and interactive UI widgets.
- Integrated asynchronous backend services for real-time user activity, verification, and RSVP handling.

#### Lois Braid Platform

🔗 <https://www.loisbraid.com>

React.js    Tailwind CSS    REST APIs

- Architected a modern, interactive web frontend in React.js styled with Tailwind CSS for dynamic service booking.
- Implemented responsive layout structures and seamless client-side state handling connected to secure endpoints.

Enterprise Document Engine

Internal Tool

Python JSON Automation PDF Engine

- Engineered an automated document generation system processing raw JSON payloads into formatted digital contracts.
- Reduced manual document generation time by 95% while ensuring exact multi-currency and financial accuracy.
